Our warmest Welcome

Welcome to St. Maarten, an island that offers as many options as life itself, and gives every lifestyle its own place in the sun.

Often referred to as the crossroads of the Caribbean, St. Maarten is where the best of the Caribbean can be found just three and a half hours from New York City by air, and almost daily by
Cruise ship.

Yes, we are very proud of our little patch of paradise. It is an extraordinary island that currently serves as the world's most diverse menu of multi-cultural experiences, where continental sophistication is set free by scintillating island energy. And as sure as day and night, there's a very good chance you'll make a memory that will stay with you forever.

So please plan to visit us soon. Plan to set yourself free, explore without limits, renew your passion for life, and put the worries of the world behind you.

With our best wishes,
St. Maarten Tourism Bureau

History of St. Maarten

The old stone forts that guard many of the island's inlets are proof of the island's turbulent past. First settled by the Arawaks, it wasn't until 1493 that St. Maarten was discovered by Christopher Columbus on behalf of Spain. Columbus sighted the island on November 11th, the holy day of St. Martin of Tours, and so named the island after him. For the next 150 years the island changed hands between Holland, England, France and Spain. In 1648 St. Maarten was peacefully divided between Holland and France, and today is the smallest landmass in the world to be shared by two sovereign nations.

World-class Beaches

There is a beach for every passion along the coast of St. Maarten. Windsurfers, snorkelers, and sun worshippers all have their favorites. Some of our more renowned beaches include the mile-long Mullet Bay Beach, perfect for swimming. Little Bay Beach is a favorite of snorkelers, with calm waters that offer excellent visibility. Dawn Beach is known for its powdery white sand. And Guana Bay Beach, along the southeast coast, offers magnificent views of St. Barthelemy and is a perfect location for wind and kite surfing.

Activities

On this island, your limit is the sky in one direction and the bottom of the sea in the other - for on St. Maarten there are no limits other than the boundaries of nature itself. You can sail the same 12-meter yacht that won the America's Cup, motor a giant catamaran along the mythical line separating the Atlantic from the Caribbean Sea, or venture out for giant marlin aboard any one of the fishing boat charters available year-round. At the St. Maarten Museum, you can follow the history of the island from prehistoric times. At Rain Forest Adventure park you can ride the Explorer Sky Chair to the top of the highest peak in St. Maarten and take in breath-taking panoramic views, on your way back you can zip down the steepest zip line in the world, The Flying Dutchman.

St. Maarten's Nightlife

Moon Bar

St. Maarten offers a 24-hours experience like no other island in the Caribbean. European sophistication plays a non-stop game of tug-of-war with raw island passion, and with eleven casinos and dozens of night bars there's no stopping until you say so. Which is why St. Maarten is the perfect place to put the worries of the world behind you, to live in the moment, and renew your passion for life. What's more, talent from around the world comes to entertain, adding to an ambience of carefree fun and frivolity that is native to our island, and keeps many of our visitors coming back for more, vacation after vacation.
