GREEN MISSION

LionsDive recognizes that sustainable tourism relies on environmental, economic, and social responsibility. Since 1989, we've committed to upholding high standards of sustainability through various key initiatives.

- **Reusable Water Bottles:** Guests receive a sugarcane water bottle to reduce waste and promote Curaçao drinking water.
- **Recycling Program**: In partnership with Green Phenix, we provide bins for recycling plastic & aluminum waste throughout the resort.
- **Eco-Friendly Sunscreen:** We provide sunscreen dispensers at the beach with products that are safe for marine life and coral reefs.
- **Community Support:** We've adopted a local school, providing them with materials and financial aid. Besides we support local organizations such as: Birgen di Rosario and Rescue Paws
- **Pack for a Purpose:** As 'Pack for a Purpose' member, we invite guests to save a few kilos in their luggage for supplies supporting various good causes.

In addition to these initiatives, we promote water conservation, solar energy, and local sourcing. Staying at LionsDive contributes to a sustainable future for Curaçao.
